

Firefox

On a PC, click the orange **Firefox** menu at the top-left, then select **Options** and **Options** again. On a Mac, go to the **Firefox** menu and select **Preferences...** This will open up a window like the one on the left below. Click on the **Privacy** tab, then click **remove individual cookies**, which will bring up the window on the right. Type **andover.edu** into the search bar, and then click **Remove Cookies** at the bottom. Close and reopen your browser, and try to log in again.
