March 2021

Dear Andover Families,

In the midst of these unprecedented times, we are delighted to see the 2021-2022 academic year take shape with such a talented and diverse group of new and returning students. Phillips Academy students – youth from every quarter – bring their remarkable energy, dedication and promise to Andover representing 44 states and 51 countries. They form the foundation of our vibrant community.

Andover alumni speak passionately about their transformative experiences, defining moments with faculty and friends, and the continued presence of Andover in their lives today. We hope your student embraces all Andover has to offer and comes to feel similarly fulfilled and passionate.

Please take time to review the *Blue Book*. The *Blue Book* outlines Andover's general guidelines and policies with respect to academics, behavior, and community expectations. It is updated annually and is integral your child's successful enrollment at the Academy. The latest edition will be available this summer, but please review the current edition prior to signing this agreement. For more information, go to the parent portal in the Hive.

We are grateful for our wonderful community for keeping us healthy, connected, and learning in the midst of global uncertainty. We hope you will join us and wish you and your student the very best Andover experience!
