

Phillips Academy **ANDOVER**

The Ice Rinks at Phillips Academy has adopted the following COVID-19 safety rules and requirements. All patrons who access the Phillips Academy campus and enter the facility must be in compliance. (Note: As necessary, these safety rules and guidelines will be updated in response to state and/or federal orders or guidelines and best practices.)

Date	Revision History	Revision Class	Comments
9-8-2020	1.0	New	Released New Document
11-13-2020	1.1	Major	Updates per Governor's COVID-19 Order #54

1. **Stay home or go home if you are sick.** In the spirit of Non Sibi and for community health, it is important that you stay home if you are not feeling well. Do not come to campus or the Ice Arena if you:
 - Are being tested for COVID-19 (outside of the Academy testing plan) or have recently tested positive and not yet recovered.
 - Live with someone who is being tested for COVID-19 or who has recently tested positive and not yet recovered.
 - Have been informed that you have recently been exposed to someone who is being tested for COVID-19 or who has tested positive.
 - Are experiencing any COVID-19 symptoms.
2. All patrons are required to complete COVID-19 symptom tracking prior to using the facility.
3. All patrons must wear a face covering while on the Phillips Academy campus, inside the Ice Arena, and at all times while on an ice surface. All face coverings should be made of at least two layers of breathable material, fully cover the nose and mouth and be secured with ties or ear loops. **Neck gators and bandanas are not an acceptable form of face covering for use while on the Phillips Academy campus.** Additionally, face shields are not a substitute for a face covering and, if worn, they should be worn in addition to another approved face covering.
4. All patrons will enter through the main entrance of the building. Rink staff and signage will be posted throughout the building to ensure patrons maintain physical distancing guidelines of 6' of distance from patrons.
5. Exits are posted throughout the building. Harrison Rink participants will exit through East part of building near viewing area or back through main entrance (Right Side). Gurry Rink participants

will exit through double emergency doors on South End of Gurry Rink or through east viewing area.

6. Reentry is only permitted at the conclusion of the scheduled ice time for parents/guardians helping younger players or if an emergency occurs with your child.
7. One Parent or Guardian per player. No siblings are allowed in the rink and patrons are encouraged to plan accordingly.
8. Players must enter the building fully dressed. Locker rooms are closed until further notice. Players must use marked locations to put on skates, helmets and gloves prior to getting on the ice surface.
9. Please do not bring valuables into the building. Items left behind cannot be stored and there will be no lost and found.
10. Patrons for youth hockey and Freestyle classes may enter the building 10 minutes prior to their scheduled ice time and will be expected to leave the facility immediately after removing their skates, helmets and gloves.
11. The number of participants permitted to be on the ice and benches is limited to a **maximum of 25 plus 5 coaches. There are no exceptions to this policy.**
12. Until further notice, the Phillips Academy Ice Rinks will not be hosting any hockey games and Youth and Adult games will not be held in the facility.
13. The Ice Rinks will close daily at 9:30 PM in compliance with the Commonwealth of Massachusetts' COVID-19 Order #54 issued on November 2, 2020.
14. Patrons are expected to leave the facility immediately after their ice time or child's ice time.

If you have any questions or concerns regarding any aspect or element of the guidelines, please contact Matthew Gray at mgray@andover.edu.

We appreciate everyone's patience and cooperation in adhering to these new guidelines and ask that all patrons abide by rink staff direction.

All areas of the ice rink, including common areas, locker rooms, player benches, and other "high touch" surfaces, will be cleaned hourly and operational areas within the rink will be disinfected each night.
