Players need to be fully functional by themselves on hockey skates before being accepted into this program.

Each player will need to get up on their own after falling, push with both skates, and have some stopping and backward skating abilities.

Players will learn hockey-specific skills such as puck control, shooting and passing in a fun atmosphere.

Phillips Academy Skating School offers skating classes for those who do not meet the skating expectations listed above.

Half-Ice Fridays

Fun, “pond hockey” style of play. Rink will be separated into 2 or 3 small ice sheets. Players will be separated by age and ability. Beginner/Intermediate levels — ages 5-12.

July 13 – 17 $449/per player

8:30 am – 4:00 pm (Monday – Friday)

Our new Power and Finesse Camp incorporates the two major athletic abilities in the sport, and how to gain an advantage for each.

Half of the day will focus on power skating, edges and how to take the ice with speed. Guest coaches will take the ice to give each player a new perspective on learning the fundamentals to excell.

The other half will focus on stick handling, shooting accuracy, and maneuvering around the ice during a fast-paced game.

- Ages 10 – 14
- Both boys and girls are welcome to participate.

Power Skating Clinics

These specialized clinics are designed specifically for hockey players with exercises that will improve their edges and teach them how to skate with power. Please view a separate brochure for the full details on the days and times.
